SUMMARY

Full-Stack Developer with 6 months of industry experience engineering responsive UIs and secure backend systems as an intern. Skilled in React.js, NestJS, Spring Boot, and Laravel, with a proven ability to deliver production-level code. Eager to contribute to scalable software solutions as an Associate Software Engineer.

SKILLS

Languages: Java, Python, JavaScript, TypeScript, HTML, CSS, PHP
Frontend: React, Next.js, Angular, Tailwind, Bootstrap, jQuery
Backend: NestJS, Express.js, Spring Boot, Laravel
Database: MySQL, MongoDB, SQL Server
Tools: Git, GitHub, GitLab, Docker, Linux, Figma
Cloud: Firebase, AWS, Azure
Methodologies: Agile/Scrum, REST API Design, Responsive Design, Version Control

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern – Sans Technologies (June 2025 – Nov 2025)
• Contributed to a 3-member Agile team to engineer 3+ scalable full-stack applications using React, NestJS, and Laravel, ensuring strict adherence to enterprise code quality standards.
• Built responsive User Interfaces and integrated optimized RESTful APIs.
• Managed Git version control, branching, and pull requests to streamline team collaboration.

Demonstrator – Institute of Java Software Engineering (Aug 2024 – Jun 2025)
• Mentored students in Java software engineering principles, conducting code reviews and debugging sessions to improve code quality.

PROJECTS

Internship Projects – Sans Technologies

Payment Collection System – React & NestJS
• Implemented a secure payment collection platform using React and NestJS, integrating the Airwallex API to automate payment link generation for administrators. Reduced page load time by 35%.
• Tech Stack: React, NestJS, TypeScript, Tailwind, JWT, MySQL, Airwallex API

TravelCare Mexico – React & NestJS
• Built 10+ responsive user-friendly UI screens and modular admin panel components for a travel assistance platform using React and Shadcn UI.
• Tech Stack: React, Tailwind, Shadcn, NestJS, JWT, MySQL

Sukkanama.lk – Laravel | www.sukkanama.lk
• Built 20+ dynamic UI components using Laravel Blade templates and Tailwind CSS, ensuring a responsive and consistent user experience.
• Tech Stack: Laravel, PHP, MySQL, Blade, Tailwind

Academic Projects

SmartClass – React & Spring Boot | Demo

• Developed a comprehensive class management system using Spring Boot to serve RESTful APIs and React for a dynamic, responsive frontend interface.
• Tech Stack: Spring Boot, React, Tailwind, MySQL, JWT
• https://github.com/sherulfernando2000/Smart-Class

Booking System – React & Express.js | Demo

• Implemented a comprehensive admin dashboard using React and Node.js, facilitating efficient user management, booking oversight, and real-time analytics visualization.
• Tech Stack: React, Express.js, Node.js, MongoDB, Tailwind, JWT
• https://github.com/sherulfernando2000/Book_Club_Management

NextEVENT App – React Native & Firebase | Demo

• Built a cross-platform mobile application using React Native and Expo, facilitating seamless event posting, discovery, and booking management.
• Tech Stack: React Native, Firebase Firestore, Firebase Auth, Expo
• https://github.com/sherulfernando2000/NextEVENT

EDUCATION

Undergraduate BSc (Hons) Computer Science in Software Engineering (2023–present)
Institute of Java Software Engineering (IJSE)

G.C.E. Advanced Level – Mathematics Stream (2019)
Chemistry - B| Combined Mathematics - C| Physics - S| General English - C
Holy Cross College, Kalutara

G.C.E. Ordinary Level – 9A's (2016)
Holy Cross College, Kalutara

CERTIFICATIONS

University of Moratuwa

- Web Design, Front-End Web Development, and Python for Beginners – University of Moratuwa

Sololearn

- Java Intermediate – Sololearn
